Child Care Resource and Referral Collaborative

ABOUT THE CCR&R COLLABORATIVE

The **Child Care Resource and Referral (CCR&R)** project is a statewide initiative in which infant and early childhood mental health consultants support the work of child care resource and referral agencies. (CCR&Rs assist parents and child care providers with accessing services that benefit young children.) The goal of the project is to promote adult and child resilience and wellness and strengthen the capacity of CCR&R staff to respond to the challenges of providers, caregivers and children. Support can take on many forms and is developed in collaboration with CCR&Rs to best meet their needs.
